

On any given night, nearly 6,000 Chicagoans don't have a place to call home. Tens of thousands more are just one unexpected setback away from joining them. Together, we can ensure that all our neighbors have stable homes. **All Chicago collaboratively addresses the complex issue of homelessness through our four signature approaches.**

Emergency Funds

The Emergency Fund provides critical financial assistance to people experiencing, or at risk of, homelessness or another serious emergency. We quickly provide payments on a person's behalf for things like rent, utilities, or even bus passes.

2016 Impact: We served 3,195 households, including more than 1,350 children, with \$2.7 million. 94% of clients surveyed reported being housed at the time of follow up, and 88% of clients surveyed reported that the financial assistance resolved their crisis.

Continuum of Care

The Continuum of Care is a membership group that strategizes and plans a coordinated, comprehensive approach to providing housing and services for people experiencing homelessness. We drive Chicago's city-wide response to homelessness by providing leadership to Chicago's Continuum of Care through a year-round research, evaluation, strategic planning, and federal funding application process.

2016 Impact: We secured \$65 million in federal funding for 164 projects and staffed 20 stakeholder committees. Overall, Chicago's homelessness decreased 13% from 2015 to 2016.

Homeless Management Information System

We manage the Homeless Management Information System database, which contains local data on people experiencing, or at risk of, homelessness and the services they receive. We ensure data quality by supporting more than 900 individual users at 89 partner agencies with training, reports, and helpdesk services.

2016 Impact: We analyzed and disseminated the data to drive discussion, set strategy, and make policy and funding decisions on the federal and local levels. The data is a critical component of the Ending Veteran Homelessness Initiative, which has housed more than 2,300 veterans since 2015.

The Learning Center

The Learning Center provides trainings, workshops, tools, and research to help our partners apply proven strategies to prevent and end homelessness in Chicago even more effectively.

2016 Impact: We hosted 42 trainings for more than 900 attendees on topics such as Legal Issues for Homeless Youth. We participated in Notre Dame's research study proving that emergency financial assistance lowers instances of homelessness by 76%.

Together, we can ensure that all our neighbors have stable and secure homes. Join us at allchicago.org
